Nigg Wastewater Treatment Works	Kelda Water Services Grampian	19 May 2017
WHAT is happening?		
<p>Nigg WwTW site operators, Kelda, will be undertaking planned inspection and maintenance works within the sludge treatment area during the week of 22nd May. A shut down of the main sludge treatment units for annual statutory inspections will allow a range of other planned works to take place, works which will benefit the operation of biogas systems and associated equipment.</p> <p>The wastewater and odour treatment processes will be unaffected by the work. As it does, 24hrs a day, the works will continue to produce sludge and this will be managed in line with an odour risk assessment and mitigation plan. The sludge digestion feed will cease and any residual biogas production will be treated through existing equipment. Sludge will continue to be thickened and temporarily stored indoors in covered trailers prior to transport offsite via Coast Road and Altens Industrial Estate for recycling in the Central Belt.</p>		
WHY are we telling you?		
<p>As part of our ongoing commitment to minimise any inconvenience associated with the operation of the treatment works, we recognise the need to maintain open communication with our neighbours. Whilst there is a risk that local stakeholders could be affected by odour associated with the movement of sludge cake, Kelda will mitigate the potential effects by maintaining high levels of housekeeping and careful supervision of contractors. Should there be any further change in operations, we will revise this notification.</p>		
WHEN is this happening?		
<p>Initial shut down late on Sunday 21st May with works commencing Monday 22nd May and continuing until Friday 26th May 2017.</p>		
WHERE is this happening?		
<p>The sludge treatment centre forms the western half of the site.</p>		
		
WHO to contact:		
<p>Regional Communities Team Manager ruaridh.macgregor@scottishwater.co.uk</p>	<p>Scottish Water Contact Centre 0800 0778778</p>	<p>SEPA Pollution Hotline 0800 80 70 60</p>
WEATHER forecast:		
<p>Weather is forecast to be dry with variable light winds. Regular updates can be found here: http://www.yr.no/place/United_Kingdom/Scotland/Torry/hour_by_hour.html</p>
